PRODUCT BENEFITS & FEATURES

ACH Processing allows funds to be electronically debited or credited to a company's or individual's deposit account. ACH Processing is an excellent payment solution for businesses that provide ongoing service, have monthly/annual memberships or are e-commerce based. Simplify your business billing needs by using ACH for one-time payment or recurring billing.

Benefits of ACH

- Accept payments via phone or Internet directly from customers bank account
- Provide better customer service by offering an additional method to collect payments
- Use the NMC Virtual Terminal as a one stop electronic payment processing platform that includes ACH, credit card, gift/loyalty card processing and reporting
- Save time invoicing and collecting payments

ACH Overview

- ACH transaction dollars totaled \$33.7 trillion in 2006
- Internet-initiated ACH payments (Web) grew by 35.0% to 1.8 billion in 2006
- Number of direct deposits grew by 5.5 percent to 4.7 billion in 2006

"Convenience, speed, low cost and especially various recurring automatic payment options provided by NMC ACH product - is not luxury but necessity to do business right!"

- Law Offices of Michael Drewer, New York

"We cannot imagine how we could operate before without the NMC ACH product, we would never achieve our current client volume using old billing methods."

- Valley Medical Billing, California

The screenshot shows the NMC Virtual Terminal interface within a Windows Internet Explorer browser. The page has a header with the NMC logo and navigation links like 'Help', 'Sign Off This Account', and 'Account Properties'. The main content area is titled 'VIRTUAL TERMINAL' and contains a form for processing ACH payments. The form is divided into several sections: 'Account Information' (Account Type, Bank Routing #, Account #, Name on Account), 'Order Information' (Description, Amount, Reference #), and 'Schedule Information' (Select Occurrence, Set Option, Start Date, Duration, End Date). There are also checkboxes for 'Post Payment' and 'Schedule Recurring Payment'. The interface includes various validation messages and instructions for users.

- Eliminate duplicate data entry and additional trips to the bank
- Obtain automatic payment receipts for any ACH transaction
